

TUSHAR GADAKH

Computer Engineering Undergraduate | Web & Software Developer |

9175429560 | tushargadakh1106@gmail.com | Pune, India |

PROFESSIONAL SUMMARY

Final-year Computer Engineering undergraduate with hands-on experience building full-stack web applications using PHP, MySQL, HTML, CSS and JavaScript, plus a foundation in Python, C++ and data structures. Comfortable owning a project end-to-end — schema design, backend logic, and deployment. Strong analytical and problem-solving ability, with growing interest in AI/ML and cloud technologies. Looking to contribute as a Trainee Software Developer and grow into full-stack and emerging-tech work.

EDUCATION

Bachelor of Engineering – Computer Engineering

Aug 2023 – May 2027 (Expected)

AISSMS College of Engineering CGPA: 8 | Pune, India

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering (SDLC)

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, PHP, SQL, Java (basic)
- **Web Development:** HTML5, CSS3, JavaScript, PHP, RESTful APIs
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code
- **Core CS Concepts:** Data Structures, OOP, DBMS, Operating Systems, Computer Networks, SDLC

ACADEMIC PROJECTS

Billing & Inventory Management System

Dec 2022 – May 2023

- Built a centralized web platform in PHP and MySQL to automate sales invoicing and stock tracking, replacing a manual record-keeping process.
- Designed the relational database schema (products, stock, invoices) and implemented core billing and inventory logic.
- Reduced manual invoice preparation effort by automating bill generation and stock updates in real time.

Technologies: PHP, MySQL, HTML, CSS, JavaScript

Room Rental Website

Jun 2022 – Nov 2022

- Developed a full-stack web application to connect tenants and property owners directly, removing the need for brokers.
- Implemented property listing, search/filter functionality, and user authentication.
- Built a responsive front end so listings are usable on both desktop and mobile.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Coupon Trading Website

Jan 2022 – May 2022

- Built and deployed a coupon-listing web application, covering front-end structure, backend logic, and hosting/domain configuration.
- Gained practical experience with live deployment — domain setup, file management, and environment configuration.

Technologies: HTML, CSS, JavaScript, PHP
